Listening Survey

LAST CHANCE- We want to hear from Bedford Borough residents on what you think we should be focusing on during 2025/26.

On 1st February each year, Healthwatch Bedford Borough publishes a Priority Listening Survey. This survey helps to inform our key strategic priority areas of focus for the year ahead and ensures that local residents and key stakeholders are fully involved in decision-making.

Secure Data Core Public Advisory Group

Group members wanted for East of England Secure Data Environment Core Public Advisory Group

Are you interested in how patient data is used for research in the East of England? The East of England Secure Data Environment (SDE) is a digital platform that allows approved researchers to securely access de-personalised patient data for health research. It has been built in partnership with NHS organisations across the East of England, with state-of-the-art cyber security measures, controlled access and robust oversight of data usage. We've been working with a small group of people from across the East of England who meet with the SDE team about every 2 months to provide a public perspective on the project and to advise on its development.

This group is called our 'Core Public Advisory Group' and we are welcoming applications for new members. You can read more about the role, including information about payments.
